control

premier college has the most sophisticated scheduling system available - making double bookings and appointment errors yesterdays headache. The built in point of sale system automates your stock control and tracks packages, courses and gift vouchers in one seamless process and client records are updated with ever transaction that the client makes.

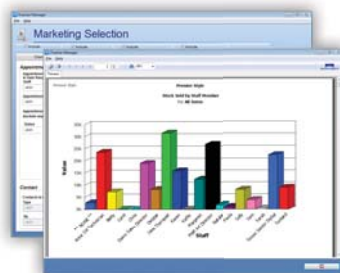

simple

Client relationship management is vital in today's competitive marketplace. Building long term relationships with your clients can only serve to improve their loyalty to you. Up to date information gives you the power to make your mailshots more targeted and to maximise your levels of customer care. The automated reporting within premier college enables you to focus on your clients rather than on your paperwork.

power

premier college is totally configurable with your business requirements - every aspect of the system can be customised to suit your exact needs. From the types of treatments you offer, to all of the retail and stock analysis you require, premier college will accommodate your business demands.

Increasingly salons are becoming computerised, installing premier college in our training salons provides an excellent opportunity for the students to gain working experience of a computerised salon management system.
